RECOMENDACIONES

The integrated management of the strategic plan, portfolio, programs, projects and budget allows the strategic alignment domain: —

- Understand strategic priorities and their impact assessment. Establish
- cascading alignment: Organization, Department, Person. Identify
- prioritization criteria and project selection.
- Permanently collect and consolidate performance data from plans and projects, and measure and compare performance results against strategic goals, in order to present the level of achievement of objectives and strategies.
- Facilitate the follow-up to the realization of benefits so that the impact achieved that justified the investment in plans and projects is established.
- Coordinate the implementation of the strategy that allows to close the gap between the planning and the logro of the strategic objectives.
